

# DriveLine

## Transmissions & Drivetrain Solutions

Drive Line is a leading supplier to diverse industries and serves Oil & Gas, Marine, Process Industry, Power Generation, Material Handling and Construction sector with world-class products from the following reputed manufacturers.

Stromag's extensive product range includes flexible couplings, disc brakes, limit switches, an array of hydraulically, pneumatically, and electrically actuated brakes, and a complete line of electric, hydraulic and pneumatic clutches.

Twiflex offers the largest range of pneumatically-, hydraulically-, and mechanically-applied industrial disc brake calipers in the world, along with a full line of thrusters, disc brake systems, flexible couplings, and shafts clutch couplings.

Backed by extensive application experience, Wichita engineers utilize the latest design technologies and materials to provide innovative clutch and brake solutions that precisely meet their customer's most demanding requirements.

Svendborg Brakes product range includes hydraulic brakes and power units, soft braking controls and couplings. Svendborg Brakes strives to be the preferred provider of these products and solutions to industries within the fields of e.g. renewable energy, mining, cranes and oil & gas.

Bibby Turboflex is recognized around the world for advanced industrial couplings and torque limiting technologies. Since 1917, with the introduction of the resilient grid coupling, Bibby Turboflex has been recognized as a global leader in the design and manufacture of highly-engineered industrial couplings.

Warner Electric engineers utilize the latest materials and manufacturing technologies to design long life, easy-to-use clutches and brakes that provide improved accuracy and repeatability. Warner Electric offers the broadest selection of industrial clutches, brakes, controls and web tension systems available from a single manufacturer.

Ameridrives offers a wide range of products including Amerigear gear couplings and mill spindles, high-performance Ameriflex® diaphragm and Ameridisc® couplings, TurboFlex GC® disc couplings, and a full line of Americardan universal joints.

Highly-engineered TB Wood's coupling products including, Sure-Flex® and Dura-Flex® elastomeric couplings, Form-Flex® disc couplings, G-Flex® grid couplings, and Jaw couplings, represent the latest in coupling technology, featuring superior design and exceptional quality to ensure long-lasting performance.

As an independent manufacturer of electromechanical and electro-hydraulic drive solutions, EMG offers many additional products for a wide variety applications. The ELDRO® and ELHY® electrohydraulic thrusters from EMG ensure a safe and "gentle" braking process in combination with modern drum and disc brakes.

PTP INDUSTRY offers a complete range of high quality transmission products including couplings, pulleys, gears, hubs, bushings, belts, pads, brake discs, ... to ensure the robustness of the portions connecting the motor assemblies machine in any environment

# INDUSTRIES SERVED

Automotive

Baggage Handling

Construction Machinery

Crane & Hoist

Food & Beverage

Marine

Metals Processing

Minerals & Cement

Mining & Extraction

Power Generation

Pulp & Paper

Water & Wastewater Treatment

# PRODUCTS

Ameridrive Gear Coupling

Sure-Flex Plus® Couplings

Warner Tension Brake

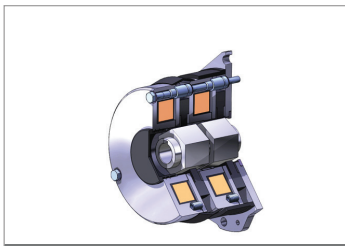

Svendborg Caliper Brakes

GKN Stromag Periflex® VN Disc Coupling

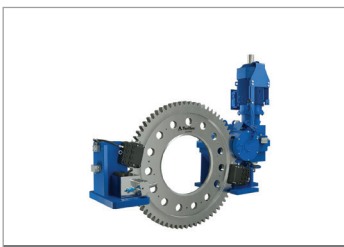

Multi-Disc Clutches for Marine Gears

Electromagnetic Tandem Spring Applied Brake

SDB Series Electro-Hydraulic Thruster Drum Brake

Turning, Locking & Braking System

Eldro® Standard Series

DURA-FLEX COUPLING

Tosiflex Disc Coupling
